

2017

Current Water Challenges
and Opportunities Facing
Southwest Colorado

Save the Date!

Friday, October 27th
Vallecito Room, Fort Lewis College
8:00 am - 3:30 pm

SGM is hosting its first Durango Fall Forum on October 27th, 2017 at Ft. Lewis College. The agenda for this Forum is centered around water resource challenges and opportunities in southwestern Colorado. The speakers presenting at the Forum will weave together their unique and varied perspectives on the value of establishing partnerships, supporting and participating in water stewardship opportunities, and how Southwest Colorado is addressing its identified consumptive and non-consumptive needs. The overarching goals for the Durango Fall Forum include:

- Present relevant discussions that authentically delve into water resources planning and/or operations challenges
- Provide the audience the opportunity to participate and engage in meaningful discussions
- Identify implementable solutions and ideas

*Full agenda to follow soon.
See you there!*
