Louis Meyer
SGM
118 West 6th Street, Suite 200
Glenwood Springs, Colorado 81601

Dear Mr. Meyer,

The Town of Mt. Crested Butte has been working with SGM since the mid 1990's and we have always experienced quality professional service, integrity, timely responsive communication, and a positive, personable working relationship with the entire SGM staff. Thank you.

We are now in the final stages of a Town Hall parking lot "remodel"/recreation path extension project which is a \$780,000.00 major Town project. SGM has provided the survey work for this project and through SGM's local staff's willingness to work extra hours, and their concern for making this a good project, we were able to work through challenges and issues between the project's out of Town design engineer and our General Contractor and thus keep the project moving forward on a timely basis.

Mt. Crested Butte is the home of Crested Butte Mountain Resort and the ski resort owners have had many major development projects from a 400 acre plus subdivision annexation to 20 acre Planned Unit Development rezoning project in our base area. SGM's involvement and service in these projects has been excellent. Our community's building department has worked hand in hand with SGM's staff in reviewing all details including but not limited to roads, sewer lines, water lines, storm water drainage and issues, building location, and trails leading to and through Planning Commission and Town Council review and approvals. SGM's staff was always in attendance at meetings.

Additionally SGM's staff has been responsive in the "little" projects such as surveying and providing a drawing for one new electric utility transformer's location in just a few days.

Thank you for all of the service and work you have completed for and in the Town of Mt. Crested Butte. We look forward to working with you for many years to come.

Sincerely,

Joseph W. Fitzpatrick, Jr.
Town Manager
